Compliance Alliance Training FAQ's:

What content is under the LMS?

All digital training content is listed under the LMS system and can be tracked.

- Training Webinars
- Back 2 Basics
- Huddles
- Compliance Minutes
- Tool Segments

Does all content generate a certificate?

No, only the training that is eligible for CE credits.

What is the passing score for a user to be awarded a certificate?

A passing score of 75% is needed.

Can you track the progression of content?

Yes. Administrators can view training content via the "training activity" tab. A user can view the progression on the page of content on the top right-hand side.

Can an administrator track a user's training?

Yes and no. Our system does not have the capability to assign content to a user via an internal button on the site. However, you can share the link with a user or users and track the progression and completion of all training.

What browser works the best for viewing training?

Chrome is the browser that works best for our system.

Do you have to view the webinar first before taking the quiz?

No, you can take the quiz anytime.

When are the live webinars made available?

The webinars are available to view following the live event on the same day. Huddles are made available the following business day.

Where can find materials for the training?

You can find all materials related to the content you're viewing under the "Materials" tab.
